BLOOM WORLD ACADEMY

Age and grade placement requirements are subject to the latest Ministry of Education and KHDA regulations and may be amended where official regulatory guidance changes. Where a student's circumstances require an exception, the school will follow the applicable regulatory approval process. In accordance with Ministry of Education and KHDA regulations, please note the following:

Students who have no previous schooling (EEC – Grade 1)

Students entering school for the first time from EEC through Grade 1 will normally be placed according to their age and the applicable Ministry of Education and KHDA requirements. Where appropriate, BWA may undertake a readiness assessment to support an informed placement decision and ensure that the student is developmentally ready to access the programme. For children born in 2021 and 2022, parents may be required to sign a readiness assessment where applicable.

Students transferring from a school within the UAE

Students transferring from another school within the UAE will normally be placed in accordance with their last successfully completed grade and demonstrated academic progression, taking into consideration the student's Transfer Certificate and other relevant academic documentation. Placement will also take account of the applicable Ministry of Education and KHDA requirements, the student's age where relevant, and the curriculum and programme requirements of BWA. For children born in 2021 and 2022, parents may be required to sign a readiness assessment where applicable.

Students transferring from outside of the UAE

- Younger students from EEC to Grade 1 will normally be placed according to their age and the applicable Ministry of Education and KHDA requirements, regardless of whether they have attended school previously. For children born in 2021 and 2022, parents may be required to sign a readiness assessment where applicable.
- Grade 2 and above students will normally be placed in accordance with their last successfully completed grade and demonstrated academic progression, taking into consideration their Transfer Certificate, previous academic records, curriculum, age where relevant and the applicable Ministry of Education and KHDA requirements.

Independence Expectations (Pre-KG – KG2)

Upon entering Pre-KG-KG2 at BWA, a child is expected to be ready to participate fully during the day and in all aspects of the curriculum. In order to support a child's learning, we encourage independence, including the ability to separate from caregivers and parents each morning. A child is also expected to take care of his/her own personal needs independently such as using the toilet, eating, changing clothes for swimming, and monitoring personal belongings.

Transfer Certificate Requirements

In order to comply with the applicable Knowledge and Human Development Authority (KHDA), Ministry of Education and other relevant regulatory requirements, students transferring from another school may be required to submit a Transfer Certificate (TC) and/or other supporting academic documentation from their previous school. The requirements below provide guidance on the documentation and attestation normally required for different transfer circumstances.

Please refer to the below table for clarification on the required attestation from your home country.

The Transfer Certificate and attestation requirements outlined above are subject to the latest KHDA and Ministry of Education requirements in force at the time of transfer. Where regulatory requirements change, the latest official requirements will take precedence over the guidance contained in this policy. Parents may therefore be asked to provide additional or alternative documentation where required by the relevant regulatory authority.

BLOOM WORLD ACADEMY

If your child's current school follows an academic year from September to June, the Transfer Certificate must clearly confirm that the student has successfully completed the current grade level and has been promoted to the next grade level for the academic year of entry at BWA, where applicable.

If your child's current school follows an academic year from January to December or April to March, the Transfer Certificate must clearly state the student's current grade level at the time of transfer to BWA. Final placement will remain subject to the applicable Ministry of Education and KHDA requirements and BWA's review of the student's academic progression.

Ministry of Education Equivalency and Academic Documentation Requirements (Grades 10 –12)

Students transferring into Grades 10–12 from a different curriculum may be required to obtain Ministry of Education equivalency, approval or other required academic documentation before commencing their studies at BWA, depending on their individual circumstances, previous curriculum and intended programme of study.

Parents are responsible for completing any required attestation, equivalency or approval processes within the timelines specified by the relevant regulatory authority. BWA will provide guidance on the documentation required for the student's individual circumstances.

Where applicable, parents should:

Step 1: Obtain any required attestation of the student's end-of-year report(s) from the education authority governing the previous school (for example, KHDA for a Dubai private school or ADEK for an Abu Dhabi school), in accordance with the current MoE requirements applicable to the student's transfer [here](#).

Step 2: Complete any required equivalency process through the UAE Ministry of Education's current service channels and upload the attested academic records and any other documentation requested by the Ministry [here](#).

Requirements may vary depending on the student's previous curriculum, country of study, grade level and intended programme. Parents should therefore refer to the latest Ministry of Education requirements and follow the process applicable to their individual circumstances.

Arabic Language Requirements

Students in Grades 1–9 are required to study Arabic in accordance with the applicable UAE Ministry of Education requirements. BWA provides differentiated Arabic provision for native and non-native Arabic speakers and incorporates the relevant Ministry of Education requirements within its curriculum. BWA begins Arabic instruction in Pre-KG as part of its commitment to providing students with an early foundation in Arabic language and culture.

BLOOM WORLD ACADEMY

Students who fall within the regulatory criteria requiring Arabic A for native Arabic speakers will study Arabic A in accordance with the applicable Ministry of Education and KHDA requirements. Where a student is eligible to study Arabic B, this will be subject to the applicable regulatory requirements and any required KHDA approval.

The applicable requirements are determined by the relevant UAE regulatory criteria in force at the time of registration and may be updated by the authorities.

UAE, Egypt, Saudi Arabia, Kuwait, Qatar, Syria, Bahrain, Iraq, Yemen, Oman, Mauritania, Libya, Lebanon, Palestine, Jordan, Tunisia, Algeria, Morocco, Sudan, Somalia, Djibouti and Union of Comoros.

The country list above is provided as a reference and is subject to the latest KHDA and Ministry of Education requirements.

Islamic Education Requirements

In accordance with the applicable UAE Ministry of Education and KHDA requirements, students who are registered as Muslim through the relevant regulatory registration process are required to study Islamic Education from Grade 1 through Grade 12.

BWA provides Islamic Education through the applicable Arabic/Islamic Education pathways and incorporates the relevant Ministry of Education requirements within the curriculum. The applicable requirements are subject to the latest regulatory guidance in force at the time of registration.

English Language Proficiency Requirements

In line with BWA's admissions philosophy, applications are considered from students of all nationalities and educational backgrounds. Up to Grade 8, a student's level of English proficiency will not, in itself, prevent consideration for admission, provided that the student is able to access and benefit from the programme with appropriate support.

From Grade 9 onwards, BWA expects students to demonstrate sufficient English language proficiency to access the academic demands of the curriculum. As a general guide, students entering Grade 9 should demonstrate at least CEFR A2 proficiency, while students entering Grade 10 and above should generally demonstrate CEFR B2 proficiency.

English language proficiency may be assessed as part of the admissions process, and BWA may recommend appropriate English as an Additional Language (EAL) support where required.

Students whose first language is not English are expected to demonstrate a commitment to developing their English language proficiency. BWA provides appropriate support to help students access and benefit from the international curriculum.

BLOOM WORLD ACADEMY

Students from Primo requiring additional English support may be recommended to participate in the Integra learning support programme, subject to an assessment of their individual needs.

Students of Determination

BWA is committed to providing an equitable pathway for admission for Students of Determination in accordance with the applicable KHDA Inclusion requirements.

Where a student identifies as a Student of Determination, or where additional learning, developmental or support needs are identified during the admissions process, BWA will undertake an appropriate individual assessment of the student's needs. This may include review of existing educational, psychological, medical or specialist reports, consultation with the student and family, communication with the student's previous school and/or an appropriate entry assessment.

The purpose of the assessment is to understand the student's strengths, needs and support requirements and to determine how BWA can appropriately support the student's access to and participation in the curriculum.

Admission decisions will be made on an individual basis, taking into account the student's needs, the support and reasonable adjustments that can be provided by the school, the available specialist provision and the school's ability to meet the student's needs within its existing provision.

BWA will not refuse admission solely on the basis of a student's disability or identified learning need. Where BWA is unable to offer a place following an appropriate assessment of the student's needs and the school's available provision, the school will follow the applicable KHDA notification and reporting requirements.

Any admission decision relating to a Student of Determination will be documented appropriately, with the rationale for the decision and the support considerations identified through the admissions process retained as part of the student's admissions record.

Supporting Every Learner's Needs

BWA takes pride in being a fully inclusive school which focuses on understanding each and every learner, whether be their personal strengths, ambitions, hobbies or specific learning needs. During the Admissions process, we liaise closely with our new joining parents, the student and the previous educational provider to gain a full picture of how best we can support the student prior to joining BWA.

To ensure your son/daughter has a smooth transition into BWA the following information can be very helpful for our team to understand how best to support your learner's needs.

- Any medical, psychological or educational assessments/reports that will help the school in supporting and meeting your child's needs. Such materials are helpful in enabling us to provide the best education for your child.

BLOOM WORLD ACADEMY

- If you suspect any learning difficulties or challenges, which have not been formally identified, and you believe would be helpful for us to know, kindly notify the Admissions Manager.
- After enrolment, any notable learning concerns within the first month of learning may indicate further internal or external specialist assessments to be conducted in order to further identify and overcome any barriers to learning.

BWA is committed to implementing the applicable KHDA Inclusion requirements and providing an equitable pathway for entry for every child, regardless of their profile. Admissions decisions are made through an individualised and evidence-informed process, with appropriate consideration given to the student's strengths, needs, reasonable adjustments and the support required to enable meaningful access to learning.

Step-by-Step Admissions Procedure

Step 1:

To register your interest in admissions at BWA, please submit an enquiry [here](#).

Step 2:

Once our Admissions team has been in touch with you to confirm availability in your child's grade level, they will share our application form for you to complete. An application fee of up to AED 500 plus VAT per student, may be charged at the time of application, in accordance with the applicable KHDA School Registration and Refund Policy. The application fee is not deductible from tuition fees.

Where a student is not offered a place following the school's assessment process, the application fee will be refunded in accordance with the applicable KHDA requirements. Where the school formally offers a place and the parent subsequently chooses not to accept the place, the application fee will not be refundable, subject to the applicable KHDA requirements.

The application fee may be paid via the payment link on the application form by debit/credit card, by bank transfer or in person through the Accounts Department by debit/credit card, cheque or cash.

Step 3:

The following documents are to be submitted at the initial registration stage (all documents should be in colour and submitted in .pdf format):

- Copy of the student's passport
- Copies of father/mother/guardian passports
- Progress reports (in English) from the last two years including most recent term/semester report (Nursery reports for EEC – KG2 applicants if applicable). Reports requiring translation to English must be stamped and signed as official translation.

BLOOM WORLD ACADEMY

Step 4:

To ensure we meet all students prior to reviewing their applications, one of the following grade-wise playdates/assessments/interviews need to be scheduled, either onsite or virtually:

- **Pre-KG – KG2 applicants:** an onsite playdate in one of our Primo classrooms needs to be completed (approximately 20-30 minutes)
- **Grade 1 – 5 applicants:** an onsite CAT4 assessment needs to be completed (approximately 1.5 hours)
- **Grade 6 – 10 applicants:** an onsite or virtual interview needs to be completed with a member of our Senior Leadership Team (approximately 20-30 minutes) as well as an onsite CAT4 assessment (approximately 1.5 hours)
- **Grade 11 applicants:** an onsite or virtual interview needs to be completed with a member of our Senior Leadership Team (approximately 20-30 minutes) as well as an onsite CAT4 assessment (approximately 1.5 hours), a creative writing sample (approximately 20-30 minutes), and completion of a student questionnaire (approximately 20-30 minutes).
- **Grade 12 applicants:** it is unusual to be able to accept candidates in Grade 12 as the subject combinations need to correspond to the student's previous IB programme. However, if this is the case and the candidate satisfies admission requirements, an offer to join the CP or DP can be made.

Step 5:

Once the above steps have been completed, the student's application is sent to the Admissions Committee for review and a decision will be communicated to the family within 48 hours.

Students granted a place at Bloom World Academy will be required to secure their place through the payment of a registration deposit following formal acceptance of the offer. The registration deposit will not exceed 10% of the student's annual tuition fees and will be offset against the tuition fees for the academic year in which admission is being sought.

The registration deposit will be refundable where required under the applicable KHDA School Registration and Refund Policy, including where the parent formally notifies the school of withdrawal at least 60 calendar days before the student's scheduled start date, subject to the applicable regulatory requirements.

Step 6:

Prior to their first day of school, your child will be invited to attend a session at the school to give them an opportunity to familiarise themselves with their class and their teachers, as well as provide us with the opportunity to get to know your child and to commence the customisation of their Learner Achievement Passport (LAP).
