Reviewer	John Bell, Executive Principal 

BLOOM WORLD ACADEMY

Policy Aim

Bloom World Academy (BWA) considers this policy to be:

- An essential part of the school
- Supportive to staff and students in managing certain situations
- An important framework that will ensure consistency in applying values and principles throughout the establishment
- A roadmap for day-to-day operations
- Compliant with laws and regulations, offering guidance for decision-making and streamlining internal processes
- Designed to influence and determine all major decisions, actions, and all activities taking place within defined boundaries
- Aligned to the school's guiding statements and strategic goals determined during leadership meetings

Statement of Intent

BWA believes this policy to be a living, working document that reflects our ethos, mission, and vision. It promotes consistency and high standards across the school and is aligned with current UAE legislation and educational best practice.

Scope

This policy applies to all stakeholders.

Definitions

Smoking: The act of inhaling and exhaling the smoke of tobacco or any other substance, including dohka

Vaping: The act of inhaling and exhaling vapor produced by an electronic cigarette or similar device

Tobacco Products: Includes cigarettes, cigars, pipe tobacco, chewing tobacco, snuff, dokha, and only other product containing tobacco.

Electronic Smoking Devices (ESDs): Devices that can be used to deliver nicotine or other substances to the person inhaling from the device, including electronic cigarettes, vaporizers, vape pens, and hookah pens.

Nitrous oxide cannisters (NOS): Nitrous oxide, also known as laughing gas, is a colourless gas that is sometimes misused for its short-term feelings of euphoria. It is commonly sold in small metal cannisters, often called *whippits* or *NOS*.

Alcohol: Any beverage or product containing ethanol, in the school context, this also covers food items, medicines, or other products that contain alcohol. Alcohol-containing medicines and products used appropriately for legitimate medical or educational purposes are managed through the school's medication and health procedures.

BLOOM WORLD ACADEMY

Policy Statement

The school maintains a zero-tolerance approach to the possession, use, distribution and supply of prohibited substances on school premises and during school-related activities, in accordance with UAE law and KHDA/MOE regulations. Any incident will be responded to in accordance with the Behaviour for Learning Policy, safeguarding procedures and applicable UAE law.

Purpose of This Policy

The School recognises its duty to promote children and young people's wellbeing and is also required to promote students' spiritual, moral, social and cultural development. As part of this the School has a responsibility to help young people manage risk, reducing the likelihood they may be harmed by use of legal and illegal drugs.

This policy reflects our dedication to creating an environment conducive to learning and personal development, free from the harmful effect of nicotine, tobacco and illegal drug use, including alcohol.

The aims of the School's drugs education curriculum is to:

- To ensure a safe, healthy, and supportive learning environment by preventing the use, possession, or distribution of drugs, psychotropic substances, alcohol, NOS cannisters, stimulants, and tobacco products - including electronic cigarettes (vapes) - on school property and during school-related within the school community and during school-related activities.
- Increase knowledge and understanding, clarifying misconceptions about the short and long-term effects of drugs, laws relating to drugs, the impact of drugs on families, communities, and personal behaviour, the prevalence and acceptability of drug use among peers, and the moral, social, and emotional issues surrounding drugs
- Develop young people's personal and social skills to make informed decisions to stay safe and healthy including finding information and advice and devising coping strategies
- Encourage students' in need of support to come forward and to educate others into acting and speaking in the best interests of those who might need help.

Awareness & Education

Student Programmes

The school aims to deter the abuse of all drug substances by means of a balanced and informative educational programme, rooted in the schools values and which places emphasis on the need and responsibility of young people to make informed decisions for themselves.

The school will organise age-appropriate awareness campaigns and workshops throughout the academic year.

These programmes will educate students on:

- The dangers of drug and tobacco use.

BLOOM WORLD ACADEMY

- The importance of making healthy lifestyle choices.
- Strategies for resisting peer pressure and making informed decisions.
- Help students to identify sources of appropriate personal support

Appendix 1 – table outlines how these key areas are delivered across the school.

Junior School Specifics

- Curriculum will be mapped across the Junior (Grade 1-5) Programme of Inquiry and will be integrated within their Wellbeing, PERMAH and PHE focuses in their class.
- Key aspects of the curriculum will be integrated where possible or will stand alone to be covered
- Students will be able to identify and explain the importance of keeping their bodies healthy and how substances can impact healthy bodies.

Senior School Specifics

The harmful effects of drugs are delivered as part of the Science curriculum in Grade 8.

Parent Engagement

The school recognises that effective partnership with parents is essential in supporting young people to make healthy choices. To strengthen this partnership, the school will ensure parents are fully informed about Personal, Social and Health Education programmes and encouraged to engage with them.”

It is important that parents are able and willing to support the school’s policy.

Parents will be invited to dedicated workshops focused on:

- Recognising early signs of drug or tobacco use.
- Supporting their children through open communication and guidance.
- Understanding the school’s reporting channels and intervention procedures.

Working with Outside Agencies

- The school will report matters to Dubai Police and/or other relevant authorities where required by UAE law or where the circumstances warrant external intervention.
- Where a student is found in possession of a prohibited substance or related paraphernalia, the school will take appropriate action and notify or involve relevant authorities where required by UAE law or applicable procedures.
- Where required, the school will notify or involve Dubai Police, KHDA and/or other relevant authorities in accordance with applicable requirements.

BLOOM WORLD ACADEMY

Inviting External Agencies: The School recognises that students often find visitors to school a useful and informative part of their learning, but equally we know that for visits to be successful there needs to be shared understanding about the nature and content of the session/s.

As a result, the School will ensure the following measures are adhered to when using external agencies to deliver drugs education:

- negotiate content with the visitor to take account of class needs and ensure relevance
- ensure that visitors have a clear understanding about the aims and objectives of the session and that they have seen and understood the school's drug education policy
- ensure that visitors have been briefed on any particular sensitivities that there may be in the student group – these may include identified drug issues by particular students or their families – as well as any broader needs within the group.

To ensure safeguarding procedures are followed to ensure the social and emotional needs of our students.

- follow up any unresolved issues and, whenever needed, extend the learning begun by the visitor, in a subsequent lesson
- be alert to any distress caused or concerns raised in the session and ensure that appropriate support is given.

Staff Training

All staff will receive annual training on:

- Early identification of substance use.
- Intervention and referral protocols.
- Legal and safeguarding responsibilities.

Clarification of school rules relating to substance abuse

The school regards the possession, sharing, bringing into school, distributing, sale or use of illegal drugs, smoking paraphernalia, NOS canisters, tobacco or tobacco-related products, solvents, alcohol, vapes as serious disciplinary matters and may result in disciplinary action up to and including exclusion, in accordance with the Behaviour for Learning Policy and applicable KHDA requirements.

Prescription medication

Prescription medication will be managed and administered in accordance with the school's Medication Policy and individual medical requirements. Medication will normally be stored securely in the clinic unless an agreed medical plan requires otherwise.

BLOOM WORLD ACADEMY

Prevention & School Environment

- The school is a drug-free and smoke-free zone, including all forms of tobacco, vapes, NOS cannisters, psychotropic substances, and stimulants.
- Periodic inspections of school facilities will be conducted to ensure compliance with this policy.
- The school counselling and safeguarding team will lead prevention efforts and provide support to at-risk students.

Response Protocol for Suspected or Actual Use

Any concern that indicates a child may be at risk of harm must be reported immediately in accordance with the BWA Safeguarding Policy. Safeguarding procedures take precedence over this policy where there is an immediate concern about a child's safety or welfare.

If a student is identified as a user or suspected user:

1. **Immediate referral** to the Senior Leadership team, supported by the school counsellors
2. **Timely parental notification** and involvement.
3. **Proper documentation and reporting** in line with KHDA and MOE regulations.
4. **Referral to health authorities or law enforcement** when required by law or in cases of serious concern.
5. **Supportive interventions** will be prioritised, including counselling and behaviour support plans.

Where a decision is taken not to permanently exclude a student, a condition or conditions of reinstatement following a period of exclusion may be required in the part of the student and his/her parents.

Confiscation and disposal

Searches and confiscation will be conducted in accordance with BWA's Behaviour for Learning Policy, safeguarding procedures and applicable UAE legislation. Where there are reasonable grounds to suspect that a student is in possession of a prohibited item, an appropriately authorised member of staff may request or undertake a search in accordance with the school's approved procedures. Searches will be conducted respectfully, proportionately and with due regard to the student's dignity and privacy.

Any search of a student or their possessions will be conducted by appropriately authorised staff in accordance with the school's approved search procedures, including requirements relating to supervision, staff gender, recording and safeguarding.

Routine random searches of student belongings will not be undertaken unless specifically authorised under applicable legislation and BWA's approved procedures.

Processing and practice

The following narrative is explicit in its guidance, consistency, accountability, efficiency, and clarity.

BLOOM WORLD ACADEMY

Roles and Responsibilities

With regard to implementation of this policy, roles and responsibilities are clearly stated below:

BWA Governing Board

- Ensure the policy is reviewed, understood, and aligned with UAE law and KHDA/MOE regulations.
- Provide oversight to confirm the policy is consistently implemented across the school.
- Support the Executive Principal in monitoring compliance and effectiveness.
- Hold leadership accountable for safeguarding standards linked to substance misuse.
- Approve strategic decisions regarding prevention, education, and intervention programmes.
- Champion the school's values, promoting a safe and healthy learning environment.

Executive Principal/Principal Wellbeing and Development

- Lead on the implementation and enforcement of the policy across the whole school.
- Ensure all staff, students, and parents are aware of and comply with the policy.
- Oversee reporting, investigations, and communication with external agencies (KHDA, Dubai Police).
- Provide resources, training, and structures to support prevention and intervention.
- Monitor and evaluate the policy's impact, making adjustments when required.
- Report regularly to the Advisory Board on compliance and incidents.

Designated Safeguarding Lead (DSL)

- Manage incidents involving smoking, drugs, alcohol, and related safeguarding risks.
- Record and monitor concerns on CPOMS, escalating cases as appropriate.
- Liaise with parents, health authorities, and law enforcement where required.
- Deliver staff training on early identification and response procedures.
- Provide guidance and support for students referred through this policy.
- Ensure safeguarding responses are consistent and student-centred.

Pastoral Grade Leaders

- Promote student awareness of the risks of smoking, vaping, alcohol, and drugs.
- Monitor digital and physical behaviour, reporting concerns promptly to SLT/DSL.
- Support preventative education through assemblies and grade programmes.
- Act as the first point of contact for concerns raised by tutors, staff, or parents.
- Contribute to documentation, follow-up, and support plans for affected students.
- Reinforce positive choices and wellbeing initiatives within their grade.

BLOOM WORLD ACADEMY

School Counsellors

- Provide confidential support to students affected by substance misuse.
- Lead preventative wellbeing and awareness sessions.
- Work with the DSL on risk assessments and interventions.
- Engage parents to support their child's health and recovery where needed.
- Maintain safeguarding records and contribute to CPOMS logs.
- Promote resilience, coping strategies, and positive decision-making skills

Role of Staff

- Uphold and model the zero-tolerance stance on smoking, drugs, and alcohol.
- Remain vigilant for warning signs of misuse and report concerns immediately.
- Support the delivery of preventative education in lessons and activities.
- Apply the behaviour policy fairly in incidents of misuse.
- Reinforce healthy lifestyle messages through daily interactions.
- Participate in annual training on intervention and safeguarding protocols.

Role of Parents

- Support and reinforce the school's zero-tolerance stance at home.
- Engage with parent workshops and awareness sessions.
- Communicate openly with the school if concerns arise about their child.
- Monitor and guide their child's behaviour outside of school.
- Collaborate with staff during investigations or intervention plans.
- Model healthy behaviours and attitudes towards substances.

Role of Students

- Comply fully with the school's zero-tolerance expectations.
- Avoid possession, use, or distribution of tobacco, vapes, alcohol, or drugs.
- Report concerns or peer misuse to a trusted adult.
- Engage positively in PSHE and wellbeing programmes.
- Support peers by promoting safe, healthy choices.
- Respect school rules, understanding their role in protecting community wellbeing.

Monitoring and Review

This policy will be reviewed annually or as needed to reflect legal or procedural changes and ensure alignment with strategic objectives.

BLOOM WORLD ACADEMY

Associated Documentation

When implementing a policy, consideration must be given to how it aligns and supports other policies. To ensure consistency this policy is fully aligned with the following key policies:

- Safeguarding
- Behaviour for Learning

8. Training implications

This policy will be shared with all BWA academic and administrative staff in the staff handbook. Staff will be trained and /or refreshed at the start of each academic year – during the annual BWA induction week. For new joiners they will be walked through the policy by the Principal during their induction period.

Safeguarding

We are committed to safeguarding and promoting the welfare of all children as the safety and protection of children is of paramount importance to everyone in this school. We work hard to create a culture of vigilance and at all times we will ensure what is best in the interests of all children.

We believe that all children have the right to be safe in our society. We recognise that we have a duty to ensure arrangements are in place for safeguarding and promoting the welfare of children by creating a positive school atmosphere through our teaching and learning, pastoral support and care for both pupils and school personnel, training for school personnel and with working with parents. We teach all our children about safeguarding.

We work hard to ensure that everyone keeps careful watch throughout the school and in everything we do for possible dangers or difficulties. We want all children to feel safe at all times. We want to hear their views of how we can improve all aspects of safeguarding and from the evidence gained we put into place all necessary improvements.

5. Equity Impact Assessment

We have a duty not to discriminate against people on the basis of their age, disability, gender, gender identity, pregnancy or maternity, race, religion or belief.

This policy has been equality impact assessed and we believe that it is fair, it does not prioritise or disadvantage any member of staff or student and it helps to promote equality at this school.

7. Review

This policy will be reviewed every year by the Principal – Well-being and Development. At every review, the policy will be shared with the BWA Advisory board. The review will be supported by an annual risk assessment that considers and reflects the risks students face. This is important because the risks and harms related to drug and substance abuse, evolve and change rapidly.

BLOOM WORLD ACADEMY

Appendix

	The importance of making healthy lifestyle choices.	Strategies for resisting peer pressure and making informed decisions.	Help students to identify sources of appropriate personal support	The dangers of drug and tobacco use.
